

Build a stronger digital business.

One technology partner, end to end.

Social media, websites, cloud and fully tailored software — designed, built and supported by one accountable team.

About CorsDeck

Technology made clear, useful and reliable.

We support startups, SMEs and growing teams from the first idea through launch and ongoing operation — design, engineering, cloud, security and support under one agreement.

01	02	03	04
Discover	Design	Build	Operate
Understand goals, users and business needs.	Agree the experience, scope and solution.	Deliver working, tested software in short cycles.	Maintain, monitor, secure and improve.

Indicative pricing – final scope and quotation confirmed after a requirements discussion. Ad spend and third-party licences are quoted separately.

Fully tailored software

Built around your process

When an off-the-shelf tool cannot fit the way your business works, we design a complete solution from scratch – or improve and connect the systems you already run.

- + Web applications
- + Mobile applications
- + Dashboards & reporting
- + CRM / ERP systems
- + Automation & integrations
- + Cloud + ongoing support

PROJECT-BASED QUOTE

Scope → timeline → fixed or staged quotation

Tell us what you want to achieve.

We recommend the right package.

Or prepare a tailored software quotation — design, engineering, cloud, security and ongoing support.
